DATA CONTROLLER

Kamil Pachuta
An individual operating the Valoris World project (valorisworld.com).
Contact: privacy@valorisworld.com

1. General information

This Policy describes how data is processed through valorisworld.com. The site is informational only — presenting the Valoris World project and its fictional characters (Phenomies). It does not require registration, login or the provision of any data.

2. What data is processed

The site does not actively collect personal data — we do not run analytics, use tracking tools or provide forms that collect data. To the extent technically necessary to serve the site, the hosting infrastructure provider (Cloudflare / Lovable) may record standard technical data — IP address, request time and browser type — in server logs to ensure security and availability.

3. Legal basis, purpose and retention

Technical data is processed on the basis of the controller's legitimate interest (Article 6(1)(f) GDPR) — ensuring security and proper operation of the site. Data is not used to profile or identify visitors. The infrastructure provider retains logs for the period set by its technical policy, solely for security and diagnostics; the controller does not create separate datasets from them.

4. Data recipients

Technical data may be processed by infrastructure providers acting as processors: Lovable / Cloudflare — hosting and delivery of site content; Lovable Cloud — the site's content management system (CMS); home.pl — email services for valorisworld.com. The controller does not share data with third parties for marketing or sell data.

5. Data subject rights

Where personal data is processed, you have the right to access, rectify and erase your data, restrict processing, object, and lodge a complaint with the President of Poland's Personal Data Protection Office. To exercise these rights, contact privacy@valorisworld.com.

6. Cookies and local storage

The site does not use tracking or advertising cookies. It uses only technical browser local storage (localStorage) as necessary for the site to function — to remember your language choice. Details are set out in the Cookies Policy available on the site.

7. Character status (Phenomies)

Wiktor d. Ville and Sofi Solberger are fictional virtual characters created using artificial intelligence tools. They are not real people and do not have personal data within the meaning of the GDPR. Content published on their behalf is created and edited by Valoris World.

8. Policy changes

This Policy may be updated. Material changes are communicated by updating the date on this page.

Data processing is limited to the necessary minimum. For questions: privacy@valorisworld.com.
